

S.A.S Nagar

National Girl Child Day

January 24th, 2022

National Institute of Pharmaceutical Education and Research (NIPER) S.A.S. Nagar is celebrating National Girl Child Day. It is celebrated on 24 January in India every year to spread awareness about the rights of girls and to highlight the inequalities faced by girls. It was first initiated in 2008 by the Ministry of Women and Child Development. The objective behind celebrating the National Girl Child Day is to highlight the inequalities faced by girls, to promote awareness including the rights of a girl child, the importance of education, health and nutrition. Gender discrimination is a major issue that girls or women face throughout their life. Female foeticide further affects the demographic problems in India.

To celebrate this day NIPER SAS Nagar is organizing poster making and essay writing competitions for students and staff. An online event will be held today in which speakers from various sections will enlighten us with their role in educating and empowering girls.

‘Girls with dreams become women with vision’
